SOFTWARE ENGINEER

SUMMARY

Aspiring full-stack developer with strong interest in building scalable web and mobile applications. Experienced in Flutter development, database systems, and clean architecture principles. Passionate about solving real-world problems through technology and continuously improving software performance, usability, and maintainability. Seeking opportunities to apply technical expertise and problem-solving skills in professional software development environments.

TECHNICAL SKILLS

- Full-Stack Development
- Flutter Mobile Development
- Web Application Development
- Database Design and Management
- Software System Design

PROFESSIONAL EXPERIENCE

Freelance Developer (2024 – Present)

- Developed responsive web and mobile applications for academic and small business clients.
- Implemented REST API integrations and database-driven systems to support dynamic application functionality.
- Applied clean architecture principles to ensure scalable and maintainable codebases.
- Collaborated with stakeholders to translate requirements into working software solutions.

Academic Software Development Projects (2022 – 2024)

- Developed an appointment scheduling system integrated with an AI chatbot to automate customer interaction.
- Designed and implemented a mobile rental management platform with automated notifications for property management.
- Built cloud-based and database-driven systems to improve data accessibility and operational efficiency.

EDUCATION

Bachelor of Science in Computer Engineering

University of San Carlos (2022 – 2026)

Relevant Focus Areas: Software Development, Database Systems, Mobile Application Development, Software Architecture
